DIVISION OF OIL, GAS & MINING

Dear Mr. Braxton:

I am in receipt of your request for a 1985 Annual Report on the Sinbad Property, owned by myself, and situate of in Emery County, Utah. We conducted no operations on the property during 1985, except the reclamation of several exploratory drill holes, done at the request of the BLM.

. The property in question was leased to BIRCO Development, Inc. on November 27, 1985. They may have conducted some operations on the property during 1985 and subsequent to the date of the lease, but if so, I have not been apprised of the nature and scope of their operations. I suggest that you contact Mr. Marion Birch, a principal of BIRCO Development, Inc., at P.O. Box 703, Moab, Utah 84532 for the required information.

Yours very truly,

W. L. Wilson

attach.

Dear Mr. Wilson:

RE: 1985 Annual Report

Enclosed please find the annual report form that must be completed and returned to the Division by March 31, 1985. This report details the mining and reclamation activities during 1985 which includes an updated map of the operation.

If you have any questions, please call Pamela Grubaugh-Littig or myself. Thank you.

Sincerely,

Lowell P. Braxton

BOND INFORMATION:						
A. An updated bond estimate should be included, if required in the Division's approval of the Mining and Reclamation Plan (MRP) or if changes to the MRP have occurred, including a detailed itemization of actual/estimated reclamation costs as outlined in the RECLAMATION section above. The date of the release of revegetated areas from further responsibility for a partial bond release, if applicable, should also be included.

#### APPENDIX I

### ANNUAL REPORT MAPS

- 1. Maps must be clear and legible contour maps or recent aerial photos. The scale should be 1 inch = 500 feet to adequately show topographic features.
- 2. Map sheets should be of a reasonable size, not to exceed 48 inches on a side.
- 3. Maps must have a title block with:
  - A. Map title.
  - B. Name and address of permittee.
  - C. Permit and amendment numbers.
  - D. Annual report period.
  - E. Scale, north arrow, contour interval, date of photography, etc.
- 4. All maps must show:
  - A. Legal subdivisions.
  - B. Permit area boundary clearly shown and labelled.
  - C. Amendment areas clearly shown and labelled.
  - D. Contour features.
- 5. The following features should all be clearly identified:
  - A. Topsoil stockpiles (numbered and with volumes).
  - B. Settling ponds and sediment control structures.
  - C. Haul roads.
  - D. Pits identified by location, name, number, etc.
  - E. Ramps (numbered).
  - F. Out-of-pit spoil dumps.
  - G. All waste disposal sites including, but not limited to:
    - l. Landfill sites.
    - 2. Carbonaceous waste dumps.
  - H. Diversion ditches.
  - I. Monitoring sites.
- 6. All areas to be affected by mining and reclamation in the coming year should be outlined and labelled.
